

Hello Parents and Spanish 4 and Spanish 3 students!

Mrs. Barrientos is going to communicate through Canvas while we are out of school. Starting Monday March 23, I will post some optional activities that you may want to engage in to keep up your Spanish skills. Below are the guidelines for online learning while we are out of school. We hope you are all well and will communicate with you soon.

Mrs. Barrientos

At WHS, teachers will share remote learning activities via Canvas or through their designated classroom websites. If students do not automatically receive via email a notification of an enrichment activity, as provided in Canvas, they should proactively check their teachers' websites. While these activities will not be formally evaluated, if questions arise, students can email their teachers with questions. All remote learning activities are recommended and supplemental. When school reopens, students will not be expected to turn in any work nor is it expected that they will have mastered any new content.
