

Part 1: Prokaryote Vs. Eukaryote

1. Look at the following diagram and use it to make a Venn diagram comparing and contrasting Prokaryotic and Eukaryotic Cells.

Animal cell

Prokaryotic Cells

Eukaryotic Cells

2. Comment on the size differences between these cells. What would a better depiction be? Why?

These diagrams are not to scale. Prokaryotes are much smaller than eukaryotic cells.
 (0.1-5.0µm) 10-100µm

Part 2: Plant and Animal Cells: Label the following cells. Then, fill in the Venn diagram

Plant Cells

Animal Cells
