An important update for our Pearson Mastering® users

We are pleased to announce that starting with Back-to-School 2020-2021, **all Mastering users will transition to Modified Mastering**. Modified Mastering provides the same resources and support materials you have come to know and love, however the Modified Mastering platform has been designed to improve the user experience.

You will need to manage your educator account migration and course setup in Modified Mastering over the next few months, so you will be up and running in time for back-to-school.

We have prepared detailed information to help you through this easy process. Please visit go.pearson.com/modifiedmastering for information on the features and benefits, changes, and for **step-by-step transition instructions** dedicated to our high school educators.

If you have questions regarding your access code or need personal assistance, please use our online [Customer Service Form](#).

Thank you for your continued use of our Pearson MyLab and Mastering programs. We wish you great success in the upcoming school year.
