

## TOP TWO TIPS FOR DRAWING

### 1) Use your sketch lines and sight lines

The skills we learned with graphite apply here too.

### 2) Add diverse marks.

Not everything has to be shaded in completely. Add hatching, stipple and other small marks to fill up space.

## **TOP TWO TIPS FOR PAINTING**

### **1) Use the right brush and right amount of water**

Use your wash brush and lots of water; round brush with a little water.

### **2) Drying time is a part of painting.**

Sometimes you have to wait until one layer is dry in order to add new colors.
