Make a Pattern! Select an image that has a defined clear shape.

This birch leaf works well.

## Make a Pattern!

Use your preferred selection tool to cut away the color in the background so only your reference remains visible.

## Make a Pattern!

Drag a rectangle around your reference using the marquee tool (M). Photosnop

Click Edit and select define pattern.

File Edit Image Layer Type Select Filter 3D View Plugins Window Help

## Make a Pattern!

Double check the appearance of your new pattern and make sure it has a name that you'll recognize.

Click OK

## Your Pattern Is All Set!

To see your new pattern...

In the layer menu, double click a visible layer to bring up the Layer Styles Menu

In the list on the left of the layer styles menu, find and click the option Pattern Overlay

**Double click Pattern Overlay** to select, adjust and perfect your new pattern.
