Typography 2: Typefaces vs Fonts

These two terms originally meant different things.

Typeface A specific matching group of letters.

Font A particular version of a typeface.
    This may be ...**bold**, light, *italicized*, etc.

But language is fluid and always evolving...now they're interchangeable.

Typography 2: Different Type Styles

Italics **Serif and Sans-Serif**

ALL CAPS, Mixed Caps and MiXeD cApS

FIXED WIDTH

Script or HAND WRITTEN

Make sure to intentionally choose the typeface/font and type style in your designs.

Italics   Serif and Sans-Serif

ALL CAPS, Mixed Caps and MiXeD cApS

FIXED WIDTH   *Script*   or   HAND WRITTEN
