

Back to School Night

Welcome to Honors Chemistry!

Louisa Morrison
October 6, 2022
Wellesley High School

A Little About Me

- I am originally from North Andover, MA.
- Andover/Barnard/WHOI/Vanderbilt/Belmont
- Started at WHS in 2011.
- I live in Sudbury with my husband and son

A Little About the Course

- I consider myself a part-time math teacher.
- I won't make your children memorize the whole Periodic Table.
- Grading will be based on total points. All tests are worth 100 points. Other assignments are weighted depending on their difficulty.
- Ungraded diagnostic quizzes are given after every chapter.
- Class materials are available on Canvas, including Help Videos, Canvas quizzes, course objectives and review sheets with answer keys.

A Little More About the Course

- I try to stay on top of contacting parents if a student does not do well on a major assignment, but feel free to **e-mail** me any time to check in.
- I am available for extra help during Block A on Day 4 and by appointment.
- Science Peer Tutoring is available.
